Top Five Reasons for Homelessness	People Reporting	% of People Reporting
Cannot Afford Housing	863	23.38%
Household Crisis	328	8.89%
Domestic Abuse/Violence	299	8.10%
Eviction	268	7.26%
Substance Dependency	158	4.28%

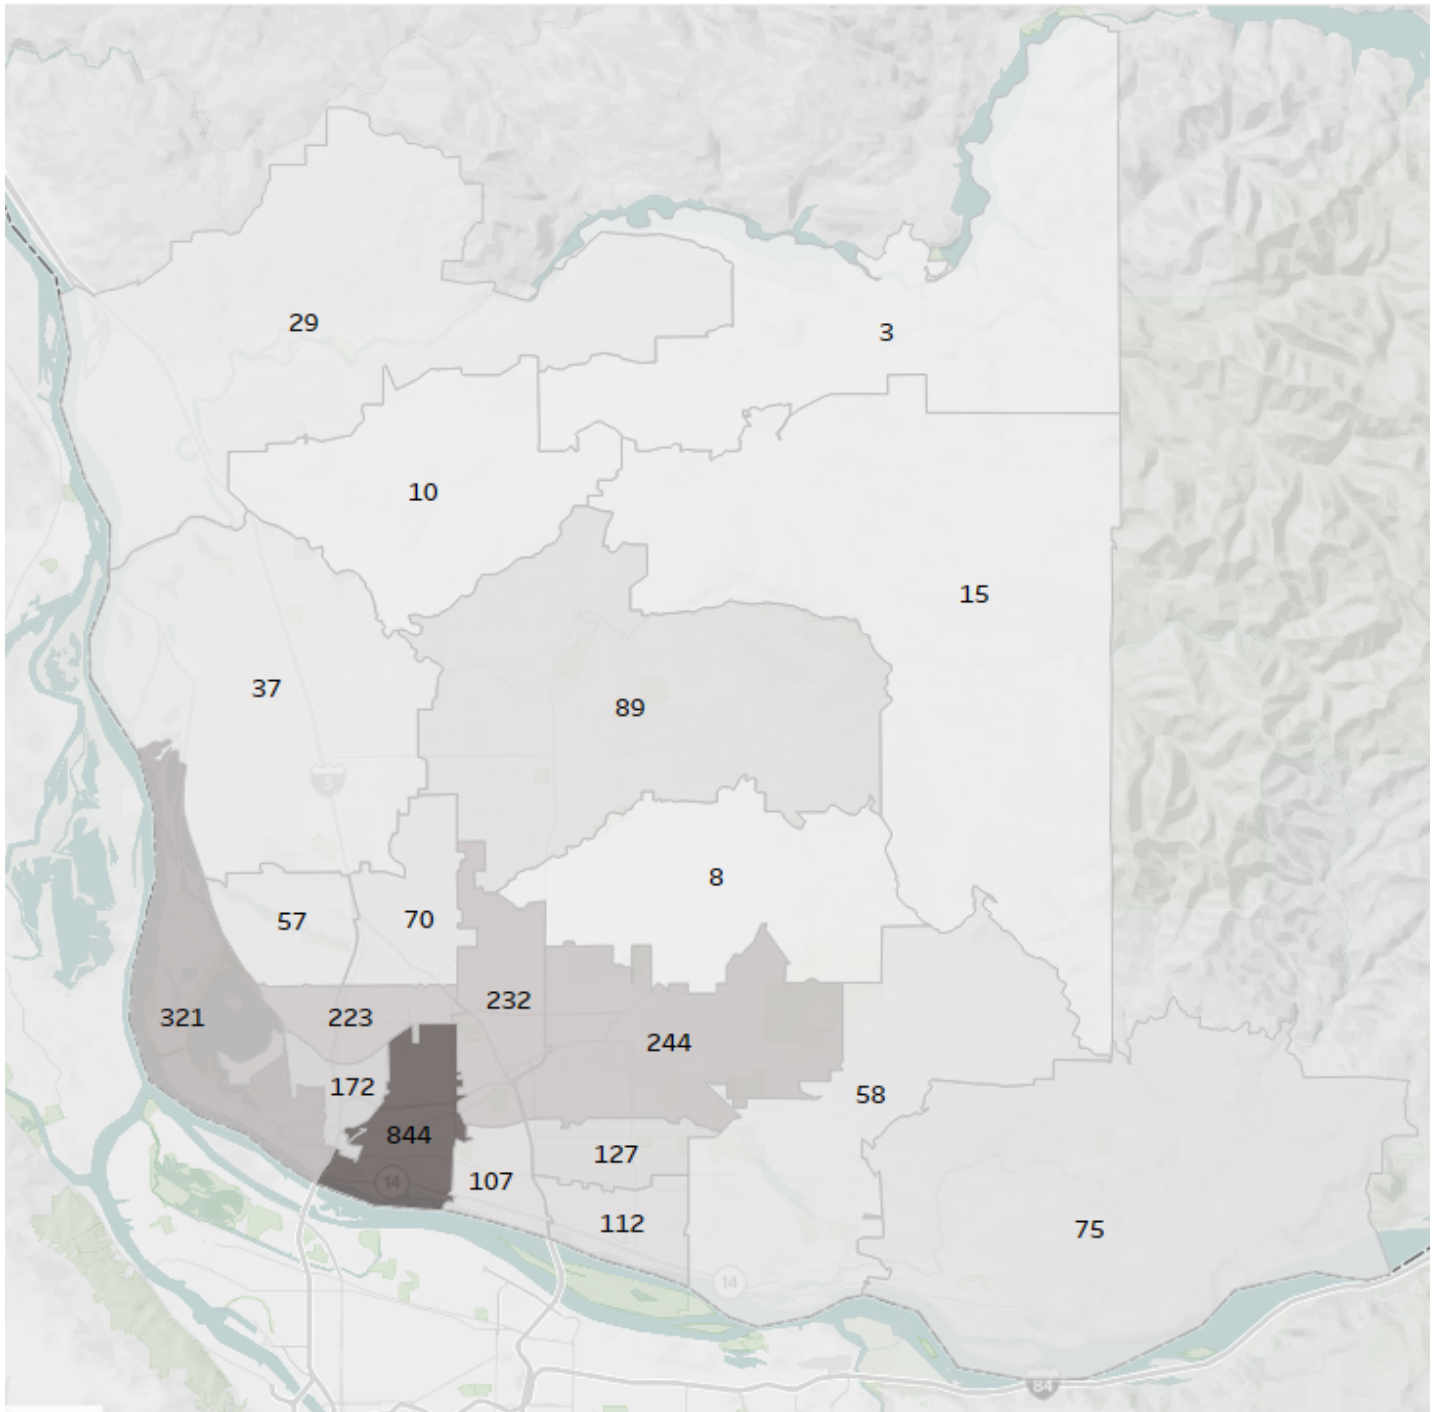

Note: These numbers do not represent all people experiencing homelessness from Jan. 1, 2019 through Dec. 31, 2019 as 39.7% of people did not have a valid "Zip Code of Last Permanent Residence" recorded in HMIS. These numbers are based on the 60.3% of clients where the data was available and represented a valid US zip code.

Zip codes are not intended for geographical mapping use, so some zip codes are both inside and outside of a given geography. In these cases, they are assigned to whichever geography covers the majority of the zip code.

Clients are asked to provide the primary reason for their homelessness when they access some services. Answering this question is entirely optional. The top five responses for clients experiencing homelessness in 2019 are shown above.

Overall Total 3,691
